

Soft Power

Fazerdaze

Where's the magic
The light inside me fades
I used to hold tight
Now I let it float away
Where's the fire
The light up on my face
Cos I was wide eyed
Now nothing looks the same

I'll find it, soft power
In my hands, I'll hold it
I'll find it, my soft power
In the dark, I'll hold the quiet glow

There's a beauty
In the quiet side of me
There's a secret
That I'm trying not to keep
If I could reach it
If I could hold it lightly
Could it remind me
I've been asleep within the dream?

I'm finding soft power
In my hands I'll hold it
I'm finding my soft power
In the dark I hold the quiet glow

I've been asleep within the dream

I'm finding soft power
I'm finding my soft power
I'm finding soft power
I'm finding my soft power

Soft power
Soft power
