

Treading Lightly

Fazerdaze

Take me soft beyond the surface
Play me out for what it's worth
So I feel that I'm loved

A diamond in the darkness
Lead me back, I might make it to
To your love

'Cause I love, love, love, love, love, love, love, I love
Oh, I love, I know now
I'm treading Lightly
Just so you know

Down beneath the surface
I'm fazing in and out of what you do
Do you love?
Darling leave the light on
Feeling on and I decide on you
That I love

'Cause I love, love, love, love, love, love, love, I love
Oh, I love, I know
I'm treading Lightly
Just so you know

'Cause we're falling in and out for a minute
And down for the night
Oh we're falling in and out for a minute
And out, falling in and out, fall in and out

Take me soft beyond the surface
Play me out for what it's worth
So I feel that I'm loved

I know, I know
I'm treading Lightly
Just so you know

I know, I know
I'm treading Lightly
Just so you know
