

Now you only call me up at night time
Just when I'm about to close shut
I think about you empty in the day light

Hook me with your words, you know the lines right
Told me that you love me that it's all right
Making up excuses, do they sound right
It's ok, yeah it's fine

Oh, let's leave the day wide open
Oh, if you could get a moment
Hope this goes the way I'm hoping
So call me when you get a moment

Waited for you but you made me sit tight
I was hoping it would differ this time
Held me under till I stopped trying
Then pulled me up in time
Go and act like everything's fine
Cut the corner back around to mine
Told me not to worry, I tried
Now you're being distant
All day all night, you're late I'm on time
Walk out the door unresolved, never mind

Oh, let's leave the day wide open
Oh, if you could get a moment
Hope this goes the way I'm hoping
So call me when you get a moment

Waited for you but you made me sit tight
I was hoping it would differ this time
Held me under till I stop trying
Then pull me up in time
No, it's not, everything's fine
Said you're coming back around to mine
Told you not to worry, I tried
Forget it, now I'm distant
All day, all night, you were never on time
Walk out the door unresolved, never mind
