

Grim Creeper

FDK

Brething close to you i'm maniac,
appearing undercover.
My hatred worst than cyanianide
you never tasted better.

Repeat your lies of insolence
I'll be there to listen.
Waiting for your lullaby
just the way i reason!

Who are you tell me your name,
I alredy smell and feel your pain.

I've come from the eye of heartless death,
fear is the only thing that's left.

Don't dare to take what I've claimed,
your ignorance will leave you stained.

Lead me further on into the void
One more step we will be towed.
