

## Evolve Forward in Hazard

### Fear, and Loathing in Las Vegas

Let us get up toughly even if the world is breaking down  
Keep evolving  
And survive no matter how bad the world breaks down  
There is always a path as long as you do not break down but stand up

We've written lyrics saying  
"Let us live strongly because we never know what will happen"

Wine poured in the ocean can't be taken back  
Broken things can't be recovered  
Entropy (And) anxiety keeps growing

Money, work, family, lover, etc  
What lacks depends on people  
Because we are going through tough times  
(It's time to know what's important)

Now get up to live and survive  
What is the most important thing  
What did we do to fight the world  
Think it through  
Think it through  
There is always a path as long as you do not break down and fall down

And keep the will (That is) deep down in your heart  
A glass that has broken into pieces cannot be put back into one

If it's just a piece of junk  
Get rid of it  
Get rid of it  
If it can't be put back together  
Pe pe pe pe pe pe pe-  
Then it's just trash  
Then it's just trash  
Wake up if you wanna keep going

Find something that will get it on  
(That will get it on)  
If you will keep running tomorrow and on that will become your pike  
(Will become your pike)  
Get out from the maze and go forward
