

# Let Me Hear

## Fear, and Loathing in Las Vegas

You guys do not notice that we  
Are gifted just by being humans  
We are absolute predators  
We do not even have any enemies  
Maybe there are other animals watching us  
And thinking that "someday we will beat them down"

Oh, we have the brains to think hard  
Wear our favorite clothes  
We are at no doubt human beings many small lives  
They were born (they were born) With the fate (with the fate)  
Of dying for someone (for someone a human baby)  
A human baby, when will they find out  
(When will they find out the true fact, yeah)

That at the point they were born, we are (we are winners)  
(The) winners of Earth  
□□□□□□□□□□□□□□□□  
□□□□□□□□□□□□□□□□

For what have I been living for?  
When will I find out the answer?  
An answer that is only for you  
What will myself and (the) first scenery I saw look like?  
It's my face, my face

Shut up! I read this inside  
The book I read before (the book I read before)  
According (to) Maslow (according (to) Maslow)  
There are five steps (in a) human's desire  
To live a long long life to stay safe and to receive  
(Baby)  
Love from others  
To get respect from (Baby) others, to get closer (Yeah)  
To your ideal (Yeah) That's what it said (Yeah)  
No matter how hard other animals try  
They probably can't go over the first step  
That is how intelligent we are and, (an animal) filled with greed  
But that is probably why we can still live  
On the top of the food chain  
In this blue planet although we have weak bodies

□□□□□□□□□□

For what to live for think deeply as you live, yeah  
'Cause you humans are (the) only ones that can do this on Earth  
□□□□□□  
What is it that you want to get in your right hands?  
Let me hear

Tell me your new answer  
Prove that you are different from monkeys  
If there is nothing to crave for, humans will die in a way  
Don't you think so too?  
Let me hear, let me hear, let me hear
