

# Sparkling Sky Laser

## Fear, and Loathing in Las Vegas

I have never gone through such a big love that you see in movies but  
Have been betrayed, and even had beef with people  
I had times that I was about to break down  
But I found it, "only one"  
"Youngness" can't be bought even if a billionaire puts down a pile of bills  
When a young kid is still a young kid  
Being able to meet you gets me excited

Fall into the sky  
Gonna dance with you taking your hand, eye to eye  
Conveying my love to you oh oh  
Fall into the sky  
Making you laugh and cry  
So, telling you my feelings  
Hoping you will be mine forever  
Won't let you go

Why are you crying now?  
I cannot understand  
Oh, tell me why, my love  
What is making you so sad?  
Why are you crying now?  
Those clear tears will wash my "today" far away  
Makes me feel I can't come back

Wow Wow Wow  
The sound that hits your heart  
Wow Wow Wow  
The words (that) hit you deep in your heart  
Wow Wow Wow  
Beat it now!  
We wanna dance with you now

The sound that hits your heart  
The words that hit your heart  
Beat it now  
(Beat it now)  
Hey, you all, let's jump to the night sky, sky, sky  
I still remember in my heart the first smile you showed me  
Sure, sure, sure it was beautiful  
I don't know how many times I was saved by your smile  
Will keep holding your hand  
So just dance tonight, So just dance tonight  
(Still remember deep in my heart, the first smile you showed)  
(I don't know how many times I was saved by your smile)  
(Just dance)  
I will keep loving you and keep talking to you from my heart until the end

So, hey you, here comes the end; the last scene  
As I said, I'm not in love like what you see in movie but, to me, your love  
is movie like  
Actually, you are the protagonist yeah  
Remember
