

## Stay as Who You Are

## Fear, and Loathing in Las Vegas

It's cold It's cold  
I'm shivering like I am on ice  
No matter how much I think, I can't find a way  
But just can't take this fate in  
Not even a hope of the sun to rise

Wind started to blow now  
Lots of emotions that I've killed  
There he is  
Showed up from the oil colored black swamp

Let me just run away from my shitty self  
By crossing over the bridge  
Running through the crowd while bumping into people  
Everyone looking at me with white eyes  
No one willing to save me  
Jumping out from the shopping bag, and rolling out

That night, I couldn't stand it  
And walked my way endlessly  
"Good morning" by that random guy saved me

More I view the glow in the morning sky  
Makes me think that the other side of Earth  
Is maybe like that too  
People are struggling to live  
This feels awesome!

Amatsubu sekai o suberu  
Awai kioku ga oshiyoseru  
Kaawaranai imēji o mitsukedasetara mō osorenai

Paths  
Our van  
Sweat  
Way to the studio  
Are there stopped feelings?  
Are there feeling we want?  
Practice  
The rainy days  
Meal with your smile  
There was already bright light when I went out  
Ah-ah-ah!

We have toured around walking  
Running, stopping, laying down  
Communicating, clashing against, being scolded, laughing  
Together feeling down, succeeding, repeating

(Walking, running, stopping, and laying down)  
Colosseum where opponents  
(Communicating, clashing and against)  
Endlessly keep coming out  
(Being scolded, and laughing together)  
It ain't gonna end until you die  
(But what increases is not only scars)  
Keep fighting, just like how an earphone set

Inside an armor doesn't melt  
(Playing endless numbers)  
(Inside an armor doesn't melt, when it goes)  
When it goes, it ain't gonna end until you die

Were you able to forget everything and become a crazy  
Monkey?

There must be precious memories in a hot summer  
Are you ready for the storm that is eventually gonna come  
Soon?

Happiness may differ depending on place and people  
Take the appreciation to heart of being able to live today  
Find your own ways of living this world logically  
There probably aren't people who don't have anything  
Let's believe (so and do it)

Just like us, the ants are also fighting to live today  
The cherry blossoms that overcame the cold winter, will push your back  
I've challenged myself to be able to look into our smiling face  
Stay as who you are  
Stay as who you are  
Stay as who you are  
Stay as who you are  
Stay as who you are  
Stay as who you are  
Stay as who you are  
Close your eyes  
Feel and enjoy it as it is

Days that're left for me now  
Are you sure you're gonna give up here?  
Do you cry when you want to?  
The choice is always on you  
You cannot end here  
Are you sure you're gonna stop here?  
We always have the rights to stand on the starting line  
Although you couldn't yesterday, you can start right now  
Because you are here living what life is

Ah! When I look back  
I can see that lots of people have raised me  
Lots have happened, and that the future  
Was dark even though I tried (though I tried)  
When someone's back is blocking your way  
Just break it down if it's cut off  
You just have to build a bridge over it  
What you have is not only yours, (now) is it?  
So let us sing, oh-oh-oh-oh, for people who we owe  
So let us sing, oh-oh-oh-oh  
I'll never fade away forever (Forever)  
Oh-oh-oh-oh!
