

Aggression Continuum

Fear Factory

[Soldier:] You were made by humans to afflict death

[Automaton:] You were made by humans

[Soldier:] We're different I'm a man I have life, you're a machine

[Automaton:] You're a machine

Laws are convoluted
Written to abuse power
Trespass on my rights
Force me into submission

No more will I be a victim
No more will I stand
No more will I be a victim
No more will I stand

No more
No more
No more
No more

I am the system assassin
Breaking this damn machine
One step back into the shadows
I see you and overcome

No more will I be a victim
No more will I stand
No more will I be a victim
No more will I stand

No more
No more
No more
No more

I defend from hostility
With pure aggression
Fight to end authority
Without compassion

System assassin

Never wanted to suffer life
Always and forever
Never wanted to suffer life
Always and forever

No more will I be a victim
No more will I stand
No more will I be a victim
No more will I stand

No more
No more
No more
No more

I defend from hostility
With pure aggression
Fight to end authority
Without compassion
