Fear Factory

Attention all civilians
For your own safety
Please evacuate the streets immediately
Remain indoors until you receive further instructions

I repeat:
Please evacuate the streets immediately
Remain indoors until you receive further instructions

Every thing you've ever known
Is coming to an end
Caged in by hallucination
Captured by the dead
Sacrificial ritual
The cause of your terror
My gun pointed right at you
Bow down to your killer

Bow down
Bow down
Bow to your killer
Bow down
Bow down
Bow to your killer
Killer

You can never collapse me
You can never defeat me
You can never collapse me
You can never defeat me

My eyes see the world on fire
Burning from within
Choking on the smoking ashes
Walking through the dead
Evolution changes us
Doomsday becomes nearer
Savior with a heart of stone
Pray now to your killer!

Pray now
Pray now
Pray to your killer
Pray now
Pray now
Pray to your killer
Killer

You can never collapse me
You can never defeat me
You can never collapse me
You can never defeat me
Defeat me

Our world has seen it all
Empires will always fall

Collapse

You can never collapse me
You can never defeat me
You can never collapse me
You can never defeat me
Defeat me
Defeat me
Defeat me
