

# Monolith

Fear Factory

My reckoning fear your silent god  
Promise of life or fear your soul be lost  
Praising a myth and beat me with your faith  
Paralyze me

My heart of stone  
My shadow stands alone

Facing into forever  
You'll never see the light  
We're staring into darkness  
The truth will blind your eyes

All of us die in darkness at the end  
We all will fall through toxic events  
Hammer to nail my hatred will prevail  
Paralyze me

My heart of stone  
My shadow stands alone

Facing into forever  
You'll never see the light  
We're staring into darkness  
The truth will blind your eyes

Monolith

Facing into forever  
You'll never see the light  
We're staring into darkness  
The truth will blind your eyes
