

## Securitron (Police State 2000)

Fear Factory

Invade and encompass to judge and dissect  
Witness and persecute to serve and protect  
To serve, and protect to serve  
To serve, and protect to serve

Watchful and aware, constrain every movement  
Admit the consequences, freedom's an illusion

Where is security governed through scrutiny?  
Your privacy denied, organized and confined!  
No place to hide!  
No place to hide!

There is no place to hide  
Plugged in your mind  
Conformed design

To concede your rights  
Concede your mind  
Surrender to authority

"All must abide and all must adhere"  
Future oppression becoming more clear  
This is a warning so you must take heed  
This coming vision is reality

Where is security governed through scrutiny?  
Your privacy denied, organized and confined!  
No place to hide!  
No place to hide...
