

# Out Of My System

Feargal Sharkey

Well I'm here waiting for the call you said you'd make to me  
Put me on the edge of my life while you been having fun I can see

Well baby come or go stop standing in the door  
And don't leave me hanging this way

I've got to get you  
Out of my system or into my life  
I've got to get you  
Out of my system or into my life  
This is the moment of truth  
I leave it up to you  
But don't leave me hanging this way

Hate to put you on the spot but am I wasting precious time  
I understand you're still recovering from a heart that's lost all feeling  
I don't wanna wonder any longer what you've got to say  
But I just go to know either way

I've got to get you  
Out of my system or into my life  
I've got to get you  
Out of my system or into my life  
This is the moment of truth  
I leave it up to you  
But I've just got to know today

I don't wanna wonder any longer what you've got to say  
But I just got to know either way

I've got to get you  
Out of my system or into my life  
I've got to get you  
Out of my system or into my life  
I've got to get you  
Out of my system or into my life  
I've got to get you  
Out of my system or into my life  
Well I've got to get you  
Yes into my life
