

Mirage

Fearless Vampire Killers

With all these promises broken
Now this chance is taken from me

I know I really shouldn't be drinking
But I don't wanna know
How I feel
The floor beneath me is sinking
And I'm losing the will
To keep standing, keep holding my weight

What used to put all I have at stake
What proof do I have that you might stay
This takes it all, my heart my soul
All I feel

Our world (and even though it hurts)
Crumbles and burns (and my face is in the dirt)
We can take (take a chance)
a chance
In the night

Waited on these these promises broken
When it all falls down
Every chance is taken from me
Snatched away like a mirage

I know that all of the feeling
Is all that I've earned
And it hurts
To always think you were stronger
Not in body but honor
But you're weaker than you ever knew

What used to put all I have at stake
What proof do I have that you might stay
This takes it all, my heart my soul
All I feel

Our world (and even though it hurts)
Crumbles and burns (and my face is in the dirt)
We can take (take a chance)
a chance

Waited on these promises broken
When it all falls down
Every chance is taken from me
Snatched away like a mirage

Waited on these promises broken
When it all falls down
Every chance is taken from me
Snatched away like a mirage

Waited on these promises broken
When it all falls down
Every chance is taken from me
Snatched away like a mirage

Waited on these promises broken
When it all falls down
Every chance is taken from me
Snatched away like a mirage
