

Control

Feder

I've got a melody
Now I'm tryin' to find the words
To put things in reverse
If you could see what I see (You could)
Then you'd know just what you are
You're everything I want
(You're everything that I want)

So baby go talk the way you're not supposed to
Your body can do the rest (You know that)
And if you need a little mind vacation
Press your cheek against my chest

Do you hear the rhythm of my heart
Feel the beatin' of my soul
When I'm with you I lose control (I lose control)
Your breath is wrapped around my lungs
And your legs around my thoughts
When I'm with you I lose it (Yeah)

When I'm with you I lose control
When I'm with you I lose control (Yeah)
When I'm with you I lose control
When I'm with you I lose control (Yeah)
When I'm with you I lose control

Give me another second to
Try to catch my breath
My mind is in a mess
Usually on top of this
But you got me on the run
Now I'm trippin' on your love

So baby go talk the way you're not supposed to
Your body can do the rest (Your body can do the rest)
And if you need a little mind vacation
Press your cheek against my chest

Do you hear the rhythm of my heart
Feel the beatin' of my soul
When I'm with you I lose control (Lose control)
Your breath is wrapped around my lungs
And your legs around my thoughts (Oh)
When I'm with you I lose it (Yeah)

When I'm with you I lose control
When I'm with you I lose control
(Lose control, lose control)
When I'm with you I lose control
(All day, all night, I lose control)
(Through the beatin' in my soul)
When I'm with you I lose control
(All day, all night, I lose control)
(Yeah, yeah, yeah)
