

Bees

Feeder

Ways, which way to go, knowledge hole
Leads us to a place that surfaced from below
And you escape, an open game
In my mind I've been here once before

Lying half awake
(Can't stop the fire)
Lying half awake
(Can't stop the fire)

Seize the moment
Slipped away
One step closer
Every day

Bones about to blow, take it slow
As we walk across a tightrope
From above, look down below, streets and homes
There's a storm on the horizon

Lying half awake
(Can't stop the fire)
Lying half awake
(Can't stop the fire)

Seize the moment
Slipped away
One step closer
Every day

Don't be afraid
Bees and nectar
Mansion's highs
Beauty sprinkle

Don't be afraid
Don't be afraid
Afraid

Seize the moment
Slipped away
One step closer
Every day

Don't be afraid
Leaves are falling
From the sky
Tables turning
Better times

Ways, which way to go, knowledge hole
