## **Bring It Home**

You can make it better in this world of sin Wanna make it better, wrapped in arms of silk You're not alone, yeah You're not alone

So you wanna feel better, in your crazy heads Learn to breath the air, drown away despair You wanna swim oceans, and feel the sun You wanna get closer to the one you love You're not alone, yeah You're not alone

Who's gonna bring it back Who's gonna bring it back, bring it home Who's gonna send it back Who's gonna send it back, bring it home

So you wanna feel better, in this world of sin Wanna watch the sunset turn from gold to pink You're not alone, yeah You're not alone

So you wanna feel better, cause it still hurts Find yourself the answer, someone you can trust You wanna climb mountains and reach the stars You wanna lie next to the face you know You're not alone, yeah You're not alone

Who's gonna bring it back Who's gonna bring it back, bring it home Who's gonna send it back Who's gonna send it back, bring it home Bring it home, bring it home, bring it home Bring it home

You're not alone, yeah
