

Desperate Hour

Feeder

We're faced with different situations
Sent to test our patience
We're running on reserve

If we jump too high
Set the bar too high
Then where will we be
More shattered hopes and dreams
Tonight
Stay close tonight

A little light for everyone
When it gets dark
And shadows roam
Don't fret
Don't be afraid
We're making a spark
'Spark'

Racing you feel your heart is racing
All this conversation
Going around your mind

If we just too high
Set the bar too high
Then when will we be
More shattered hopes and dreams
Collide
Stay close tonight

If we choose
If we climb the tower
The view from above
In this desperate hour
So don't look down
It's a long way down

Spark
