

# Divide the Minority

Feeder

The future is right in front of me  
This is our time to grow  
Vessels of opportunity  
Lay low, lay low  
Stand up to face the entity (entity)  
That's up from the heights below (below)  
Chaos and new calamity (calamity)  
Lay low, lay low  
Lay low, lay low

This is a wake up  
Calling, it's been playing on my mind  
For as long as I recall  
Time to slow things down, go underground  
It's safer down below

All the advice of new remedies  
Assassins along the way  
Time in you brought an anarchy  
Lay low, lay low  
Thievish rhymes and hypocrisy (hypocrisy)  
The jackals are out to roam (roam)  
Pray for the helpless and innocent (innocent)  
Lay low, lay low  
Lay low, lay low

This is a wake up  
Calling, it's been playing on my mind  
For as long as I recall  
Time to slow things down, go underground  
It's safer down below

There was a time when things were different  
(Give or take, better ways, wait if I come again)  
We can find our place again, again  
(Give or take, better ways, wait if I come again)  
Then our lives will feel significant, different

Issues divide the minority  
The balance begins to sway  
Uproar, evil and casualties  
Lay low, lay low  
Focus on life, solidarity (-darity)  
Family, friendship and love (love)  
We live in a world of democracy (democracy)  
Lay low, lay low  
Lay low, lay low

This is a wake up  
Calling, it's been playing on my mind  
For as long as I recall  
Time to slow things down, go underground  
It's safer down below  
Don't get left behind 'cause there's still time  
It's safer down below
