Feeder

I know you like it  
You like it like that  
You like it

I hope you like it  
There's no holding back  
You like it

I know you like it  
You like it like that  
You like it

I hope you like it  
There's no holding back  
You like it

I know you like it  
You like it like that  
You like it

I hope you like it  
There's no holding back  
You like it

I know you like it  
You like it like that  
You like it

I know you like it  
You like it like that  
You like it

Is it the right way  
Is it the right way home?  
Lost inside this desert silence

Is it the right way  
Wait 'til the morning comes  
Is it the right,  
Is it the right,  
The right way

I kept on driving  
Tryin' to get back  
Kept driving

Just keep on driving  
Facing the blast  
Keep driving

I kept on driving  
Tryin' to get back  
Kept driving

Just keep on driving  
Facing the blast  
Keep driving

I kept on driving  
Tryin' to get back  
Kept driving

Just keep on driving  
Facing the blast  
Keep driving

Is it the right way  
Is it the right way home?  
Lost inside this desert silence

Is it the right way  
Wait 'til the morning comes  
Is it the right,  
Is it the right,  
The right way

I know you like it  
You like it like that  
You like it

I hope you like it  
There's no holding back  
You like it

I know you like it  
You like it like that  
You like it

I hope you like it  
There's no holding back  
You like it

I know you like it  
You like it like that  
You like it

I hope you like it  
There's no holding back  
You like it

I know you like it  
You like it like that  
You like it

I know you like it  
You like it like that  
You like it

Is it the right way  
Is it the right way home?  
Lost inside this desert silence

Is it the right way  
Wait 'til the morning comes
