

# Sending Out Waves

Feeder

Waiting for the rain to stop  
Racing from the hurricane  
Building homes on wasted land  
They all look the same  
The blood inside the body veins  
Tells us that we're still alive  
It's the energy that we create

It's sending out waves  
Sending out  
Sending sound waves  
Just so we can still be heard

We're blinking at the real life  
But choices can be made  
Lining up close, side by side  
We all look the same  
The feelings that we keep alive  
Burn brighter than an open flame  
It's the energy that we create

It's sending out waves  
Sending out  
Sending sound waves  
Just so we can still be heard

We can leave this town  
We can leave it  
We can leave it  
We can leave tonight  
We can leave right now  
We can leave it  
But what will we find?

Sending out waves  
Sending out  
Sending sound waves

We can leave this town  
We can leave it  
We can leave it  
We can leave tonight  
We can leave right now  
We can leave it  
We can leave right now
