

# Walk Away

Feeder

Remember when it rained  
I tried to shelter you  
Protect you from the endless sorrow  
That lived inside of you

I remember we walked in silence  
Across an open field  
I hope this never ends  
You feel the way I feel

Walk away, walk away  
(Whoa whoa whoa)  
Walk away, walk away  
(Silence)  
Walk away, walk away  
(Whoa whoa whoa)  
She just walked away  
She just walked away

Because I will follow you  
Turn my life around  
You find a way to heal the temper  
A place that I can land

I remember we walked in silence  
Across an open field  
I hope this never ends  
You feel the way I feel

Walk away, walk away  
(Whoa whoa whoa)  
Walk away, walk away  
(Silence)  
Walk away, walk away  
(Whoa whoa whoa)  
She just walked away  
She just walked away

She just walked away  
She just walked away

There's no love in without pain  
And there's no summer without rain

(Whoa whoa whoa)  
(Whoa whoa)  
(Whoa whoa whoa)  
(Whoa whoa)

Walk away, walk away  
Walk away, walk away  
(Silence)  
Walk away, walk away  
She just walked away  
She just walked away

(Whoa whoa whoa)

Walk away, walk away  
(Silence)  
(Whoa whoa whoa)  
(Silence)  
(Whoa whoa whoa)
