

Everything About Christmas Is Wrong

Feeling Left Out

Notice that's what you've been eyeing
That i was thinking of buying this year
We need to unpack decorations
We're on a mid summers celebration each year

Put it in a box under your bed
Forget everything I ever said
It's that time of the year when, it's that time of the year
When You're your happiest or saddest you've been all year
I watch the seasons kill us
Better luck next year

This Christmas you're gone
Everything About This Christmas is Wrong
Any gift you think I'll like
When all I want is you back in my life this year

Being in a sleigh ride on the sand,
Because you just let go of my hand this year

Put it in a box under your bed
Forget everything I ever said
It's that time of the year when, it's that time of the year
When you're happiest or saddest you've been all year
I watch the seasons kill us
Better luck next year

Happiest or saddest you've been all year
I watched the seasons kill us
Better luck next year

This Christmas you're gone
Everything About This Christmas is Wrong (3x)
