

# Black Haired Boy

Fefe Dobson

You got me awake  
You got me down  
You got me stuck in the ground

You drive me mad  
You drive me wild  
You like to play just like a child

'Cause every time you take it down  
I just can't help myself  
When I look at you there's nobody else  
No, I just can't help myself

Found my black haired boy  
With a blue eyed prey  
He steal your heart  
Just like a thief in the night

Black haired boy  
Nobody knows his name  
He's the devil inside  
With an angel's face

You give me lies  
Just toss me out  
You give me greed  
You give me doubt

I wanna love you  
But you're so mean  
I wanna hold you  
I wanna scream

'Cause every time you take it down  
I can't control myself  
I want you better than nobody else  
No, I can't control myself

Found my black haired boy  
With a blue eyed prey  
He steal your heart  
Just like a thief in the night

Black haired boy  
Nobody knows his name  
He's the devil inside  
With an angel's face

Oh, see the girl, see the girl  
She's just my, baby  
Black boy, he needs to take her down

You better run, better run  
Run the other way  
Run away, run away  
Run away

Found my black haired boy  
With a blue eyed prey  
He steal your heart  
Just like a thief in the night

Black haired boy  
Nobody knows his name  
He's the devil inside  
With an angel's face

Black haired boy  
With a blue eyed prey  
He steal your heart  
Just like a thief in the night

Black haired boy  
Nobody knows his name  
He's the devil inside  
With an angel's face

I just can't give it away again  
I'll let you give it away  
I just can't give it away again  
Oh, let you give it away
