

Don't Let Me Fall

Fefe Dobson

If you should go
We'll never know
We can try a little harder
We can let the eagle fly away

Don't let me fall
I need you in my life
To take me through
Don't let me go
Try it one more time

Hide from today
We tried, we gave
Couldn't see that things were changing
Till the changes came to tear us down

Don't let me fall
I need you in my life
To take me through
Don't let me go
Try it one more time

Is it snowing where you are
Guess it must be getting dark
And the quiet streets of home
Are weakful
They never leave me alone

You say we're fine
As if I'm blind
Tell the weight upon your shoulders
And the pain behind your drying eyes
Let's try it one more time

Don't let me fall
I need you in my life
To take me through
Don't let me go
Try it one more time

Try it one more time
