# Get Over Me

**Fefe Dobson**

So here we stand
Just the two of us
Our hearts beating
Cause we've been so nervous
We know what's coming next
The time we hid from
Has come too fast

There's too much
I have learned from you
The love you gave
Was something new
But now I've gotta go
I don't expect you to be ok

So get over me
Cause everything I do to you
Causes you pain
Just walk away
Anyone in love
Knows you deserve better than me

You fight
And tell me to be strong
You say we're special
That you want to carry on
You beg me for one more try
I can't help but ask you why

The other guy
Is waiting right outside
Gotta get my things
Gotta leave you tonight
See some things don't work out
I never meant to hurt you now

Get over me
Don't believe in love
And I won't ever again
Just walk away
Everyone around knows
You were always better to me

Don't know why
I always sabotage everything
We may be perfect
But that don't mean a thing
