

# Give It Up

Fefe Dobson

He wants her  
She wants him too  
Broken message coming through  
Same story for different fools

Give it up, Give it up  
That's what they all say, say  
Pressure from the boys to give it away  
Suck it up, suck it up  
Don't treat me that way, way  
My heart is gonna tell me when it's time to play, Okay?

She sees him  
He stares right through  
Nasty rumors  
So un-true  
There's nothing that she can do

Give it up, Give it up  
That's what they all say, say  
Pressure from the boys to give it away  
Suck it up, suck it up  
Don't treat me that way, way  
My heart is gonna tell me when it's time to play, Okay?

And you don't even know how to love  
And you think you came from up above  
And you better know that I'm watching you  
Every move, whatcha do, where you go

And you want her  
And you need her  
And you beg her  
But you deceive her and

He wants her  
She wants him too  
Broken message coming through  
Same story for different fools

Give it up, Give it up  
That's what they all say, say  
Pressure from the boys to give it away  
Suck it up, suck it up  
Don't treat me that way, way  
My heart is gonna tell me when it's time to play, Okay?

Give it up  
Give it up  
Give it up  
Time to play

Give it up  
Give it up  
Give it up  
Time to play

Give it up  
Give it up  
Give it up  
Time to play
