

RECHARGE MY HEART

Fefe Dobson

It's been a few years of really tough
Broken relationships
I'm so beyond enough
That I moved on past all the tears

Yeah, I took my energy
And it's been way too long
Love's been my enemy
You fill me with so much fear

Thought that I'd never love again
I gave on what it could have been
Wanna feel that spark, I think I'm ready
I'm ready!

So won't you recharge my heart, recharge my heart
Maybe you can be the one, you can be the one... to
Recharge my heart, recharge my heart
Maybe you can be the one, you can be the one
You can be the...

Yeah, I'm done being all alone
I'm leaving it behind
I've been through all emotions
At least a hundred times

And I thought that I'd never love again
I gave on what it could have been
Wanna feel that spark, I think I'm ready
I'm ready!

So won't you recharge my heart, recharge my heart
Maybe you can be the one, you can be the one... to
Recharge my heart, recharge my heart
Cause' I've been empty for so long, empty for so long (yeah)
If there's a chance for you to plug me in (plug me in)
Oh, would you try to make me full again?
So won't you recharge my heart, recharge my heart
Maybe you can be the one, you can be the one
You can be the...

Give me your energy and fill me with your light
One spark is all I need to bring me back to life

Give me your energy and fill me with your light
One spark is all I need to bring me back to life

Recharge my heart, recharge my heart
Maybe you can be the one, you can be the one... to
Recharge my heart, recharge my heart
Cause' I've been empty for so long, empty for so long (yeah)
If there's a chance for you to plug me in (plug me in)
Oh, would you try to make me full again?
So won't you recharge my heart, recharge my heart
Maybe you can be the one, you can be the one
You can be the one
