

TOO LATE

Fefe Dobson

Uh oh, I went and fell right down the rabbit hole
Now karma's got you by the throat
Uh oh, in a second ya I lost control
So much I didn't know

The tap was runnin' cold and
The sink was overflowin'
You broke my heart wide open
Then questioned my devotion

Too late
You, you were the one and now you just ain't
The way you love
Can make a sinner out of a saint
So talk about it, yeah we should talk about it
So you can tell me all the things I'm gonna miss about it babe
Too late
You, you were the one and now you just ain't

Uh oh, I've heard this storyline a thousand times
An open ended string of lies
Uh oh, you were supposed to keep your red hands tied
But you weren't even trying

The tap was runnin' cold and
The sink was overflowin'
You broke my heart wide open
Then questioned my devotion

Too late
You, you were the one and now you just ain't
The way you love
Can make a sinner out of a saint
So talk about it, yeah we should talk about it
So you can tell me all the things I'm gonna miss about it babe
Too late
You, you were the one and now you just ain't

(Come on, come on)
I know you're not alone tonight
(Day in, day out)
I'm walking on dynamite
(I had my doubts)
But I was right every time that I kissed you and tasted the issue

Too late
You, you were the one and now you just ain't
The way you love
Can make a sinner out of a saint
So talk about it, yeah we should talk about it
So you can tell me all the things I'm gonna miss about it babe
Too late
You, you were the one and now you just ain't
You were the one and now you just ain't
You were the one and now you just ain't
