

Defiant

Feint

Today this world is falling
But I know, we'll never forget
What we found in that moment
Remained

You called out me when I needed you
We're rising up through the dark
I called out to you when you needed me
We are defiant

We made a vow of silence
While the sun is asleep in the night
We'll dream of a thousand reasons
To stay here

You called out to me when I needed you
We're rising up through the dark
I called out to you when you needed me
We are defiant

We are defiant
We are defiant
We are defiant
