

## Divided Sky

Feint

Cold light  
Washes over us  
Was it always clear?  
Oh when did you, when did you know?  
It was a fleeting dream?  
Did it feel sincere?  
Oh where did you, where did you go?

Oh where did you, where did you go?

Saw light  
In the divided sky  
Faded eyes shut tight  
Oh when did you, when did you know?  
Just a silent smile  
As you drifted away  
Oh where did you, where did you go?

Oh where did you, where did you go?
