

Drifters

Feint

I can hear you far away (I can hear you)
I can see you in the distance
I am living for today
On the path of no resistance

If we drift to horizon
If we let it all go
Then will you come with me? (Come with me)
So we are free
If we drift to horizon
If we let it all go
Then will you come with me? (Come with me)

I'm gonna make it somehow
I'm gonna break through the clouds
I will make you mine
I'm gonna sing it out loud
I'm gonna drown in the sound
'Till you give me a sign

(I can hear you)
(I can hear you)
(I am living for today)
(I can hear you)
(I can hear you)
(I am living for today)

You're a castle in the sky (I am seasick)
I am an island on the ocean
Will we make it through the night?
If we're guided by devotion

If we drift to horizon
If we let it all go
Then will you come with me? (Come with me)
So we are free
If we drift to horizon
If we let it all go
Then will you come with me? (Come with me)

I'm gonna make it somehow
I'm gonna break through the clouds
I will make you mine
I'm gonna sing it out loud
I'm gonna drown in the sound
'Till you give me a sign

(I can hear you far away)
(I can hear you in the distance)
