

So uncontrolled
In the undertow
Just a distant note
Chasing every hollow echo
Will I ever find
Where these trails align
Lost in stories meant
For you

Don't you wonder, though?
Where these moments go?
Searching starlit skies
Flicker gently, flicker gently

So just let me know
Where these moments go
Searching endlessly
Flicker gently, flicker gently
Till I dream

A quiet sign
Just to leave behind
An undefined
Misty moment of reflection
Will I ever lie
Where the skies will hide
All these stories meant
For you

So uncontrolled
In the undertow
Just a distant note
Chasing every hollow echo
Will I ever find
Where these trails align
Lost in stories meant
For you

Don't you wonder, though?
Where these moments go?
Searching starlit skies
Flicker gently, flicker gently

So just let me know
Where these moments go
Searching endlessly
Flicker gently, flicker gently
Till I dream
