

Outbreak

Feint

Into the night
The city lights are dancing
Slowly falling apart
The shadows causing an outbreak
I'm wishing upon a star
This time I'm feeling stronger
And I know I can do better
The shadows causing an outbreak
And turning the lights on

We're going to light it up, light it up, oh
Light it up, light it up, ooh
Light it up, light it up
Causing an outbreak
And turning the li-
We're going to light it up, light it up, oh
Light it up, light it up, ooh
Light it up, light it up
Causing an outbreak
And turning the lights on

Outbreak

Open your eyes
And see the people chanting
Slowly falling apart
The silence causing an earthquake
I'm wishing upon a star
This time I'm feeling higher
And I know I can be taller
Shadows causing an outbreak
And turning the lights on

We're going to light it up, light it up, oh
Light it up, light it up, ooh
Light it up, light it up
Causing an outbreak
And turning the li-
We're going to light it up, light it up, oh
Light it up, light it up, ooh
Light it up, light it up
Causing an outbreak
And turning the lights on

Outbreak
