

Space Boy

Feint

Hey there space boy
Moving through the galaxy
Can you hear me through the dark
I'm calling you

Where do I start?
I'm an emotional
Taken to your sweet and considerate heart
Come into my world
Give me your spark
Time to land and
Visit the planet
Give me your trust
I want to make you sure
I'm the reason to come back here
Just don't linger too much
Cause you're a stranger baby
So come get to know me
Don't be a stranger now

Lunar station
Meet me at bay number three
Can you kiss me in the dark
I'm wanting you

Always apart
I'm so emotional
Every time you pack up and leave in your car
Why can't you stay here
Soak up the charm
Take a breather, I know you need it
Give me your heart
I want to make you sure
I'm the reason you rest up
If you don't linger enough
You'll be a stranger baby
So come get to know me
Don't be a stranger now

Can you kiss me in the dark
I'm wanting you
