

## Take It In

Feint

If I could live this life again  
I wouldn't change a thing  
We're the lucky ones to find  
This love, this place, this time

And so hear me out

So take in this life  
'Cause we won't get  
This moment twice  
This moment

Holding up some memories in my head  
Every song and every tear and every breath  
'Cause I'm taking in, taking in this life  
'Cause I know that I won't get this moment twice

Take it in, just take it in  
Take it in, just take it in  
Take it all in

Every light you touch and every soul you feel  
We are safe in sound and we are strong and real  
As our minds retain us to this better place  
And the hearts forever, it will always take me in

Holding up some memories in my head  
Every song and every tear and every breath  
'Cause I'm taking in, taking in this life  
'Cause I know that I won't get this moment twice  
This moment

Take it in, just take it in  
Take it in, just take it in  
Take it all in  
Take it in, just take it in  
Take it in, just take it in  
Take it all in

Take it in, just take it in  
Take it in, just take it in  
Take it all in
