

Treading Water

Feint

Shine
Against the open blue
I'll be your wind
I'll be your sail
Like you always knew -

So glide
Under the surface
Unanswered questions pull us down
Carried by the currents

So keep your head dry
Throw me a line?
In the deep end now
Just keep pushing till we
Find ourselves on solid ground
Both safe and sound

And if we realise
If we still rise
And if we can't drift apart
Then can we stop
Stop treading water?

So stay
Stay in the shifting tide
I'll take you on
We'll play along
Like we always do

And break
Through the surface
Unanswered questions fall behind
Freedom in the current

So keep your head dry
Throw me a line?
In the deep end now
Just keep pushing till we
Find ourselves on solid ground
Both safe and sound

And if we realise
If we still rise
And if we can't drift apart
Then can we stop
Stop treading water?

Instantaneously
(I don't wanna let go)
Two became sacred sea
Risking everything
(I don't wanna let go)
Found serenity
Dark blue, Emerald Green
(I don't wanna let go)
Could get lost easily

Can we stop
Stop treading water
