

Words

Feint

It's more than emotion
I feel I'm never gonna stop
'Cause I'm falling deep
I guess the pressure's built right up
With all this desire
I've been carrying around
I'm feeling elated
I don't wanna come back down

Here I am, there you are
Don't wanna stop
I know you know it, I can feel it
All the tension rising up
So much it hurts
We're saying more than words

We're saying more than words
Saying more than words
Saying more than words
More than words
Saying more than words
Saying more than words
Saying more than words

I can't imagine
That I believe and say
This has become a passion
That is changing me
We're speaking a language
That no one understands
Far from the surface
I know this will never end

Here I am, there you are
Don't wanna stop
I know you know it, I can feel it
All the tension rising up
So much it hurts
We're saying more than words

We're saying more than words
Saying more than words
Saying more than words
More than words
Saying more than words
Saying more than words
Saying more than words
