

Worth The Lie

Feint

Calling you out now
And you're feeding your own mind
As we're caught in a landslide
Of what we had

Everything's the same now
Come on, you can give it to me
This is where the line draws
Love becomes the enemy
Causes to explain it
Never gonna get so far
Now, as I say goodbye
Tell me, was it worth the lie

Was it worth the lie

Was it worth the lie

Everything's the same now
Come on, you can give it to me
This is where the line draws
Love becomes the enemy
Causes to explain it
Never gonna get so far
Now, as I say goodbye
Tell me, was it worth the lie

Everything's the same now
Come on, you can give it to me
This is where the line draws
Love becomes the enemy
Causes to explain it
Never gonna get so far
Now, as I say goodbye
Tell me, was it worth the lie

Was it worth the lie
Was it worth the lie
Was it worth the lie
Tell me, was it worth the lie
