

## Honey Honey

Feist

Honey honey up in the trees  
Fields of flowers deep in his dreams  
Lead them out to sea by the east  
Honey honey food for the bees

Honey honey out on the sea  
In the doldrums thinking of me  
Me on dry land thinking of he  
Honey honey not next to me

Even if he wanted to  
Even if he wanted to  
Even if he wanted to  
Do you think he'd come back  
Would he come back

Oh no..

Honey honey out on the sea  
In the doldrums waiting for me  
Me in my boat searching for he  
Honey honey food for the bees
