

# In Lightning

Feist

When in lightning flashes flash  
And thunder loves me back  
And in lightning  
I can keep my energy intact  
And when the lightning is like the sun  
I feel what love could be  
Truly illuminated the future does  
Lay landing lights for me

And in lightning  
Flashes flash to show our natural age  
And the lightning lights me up  
To be as God as I say  
Then to lightning I belong  
Like electricity  
And if I'm frightened it's just because  
Of the power vested in me

And in lightning I'm the thunder  
Thundering in my heart  
And in lightning I can see  
Just as well in the dark  
The lightning asks if I know the way  
In the intermittent bright  
And if I say yes or many yeses  
It cracks
