Preparing for the worst
But I'm hoping for the best
I'm coming out when the sun is higher
It's one hit after another out here
If I'm gonna run it's now or never

But I'm spinning these blades
And I'm taking these names
And I'm waiting for the waves and fire
It's one thing after another this year
Been waiting for a good thing forever

Just stop wait a minute
Close your eyes
Feel less
Ride

Wait a minute
