

# Love Me

Felix Cartal

You're making me nervous  
Looking for my car keys and pain killers  
Tropical sweat and two middle fingers  
I know I should've ghosted at two  
But I waited it out for you

I wish I knew the way things were between us  
I'm packing a bag of bad ideas  
Every time I'm thinking of you

I'm tryna stay cool in the downtown weather  
Wondering if you think of me ever  
You know how to love me better  
It's got me feeling another level

I can't get you off of my mind  
Why do I keep wasting my time  
Man you make it easy for me  
So why can't I make you love me  
Love me

So why can't I make you love me

You're leaving me hanging  
So Ima play cool when you think I wouldn't  
Liquor by the pool when I know you're lookin  
While I dissect conversations  
Maybe there's something there for once

I'm trying not to let these mind games play me  
I'm down to be your casual lady  
Long as I got you lovin on me

When I'm tryna stay cool in the downtown weather  
Wondering if you think of me ever  
You know how to love me better  
It's got me feeling another level

I can't get you off of my mind  
Why do I keep wasting my time  
Man you make it easy for me  
So why can't I make you love me  
Love me

So why can't I make you love me  
Love me

So this could be a cruel summer  
Or a real lover, tell me how you want it to go  
But I don't need another issue  
Don't wanna miss you  
Love me or just let me go

I can't get you off of my mind  
Why do I keep wasting my time  
Man you make it easy for me  
So why can't I make you love me

I can't get you off of my mind  
Why do I keep wasting my time  
Man you make it easy for me  
So why can't I make you love me  
Love me
