

# Mouth Of Madness

Felix Cartal

Pulling up the vines  
All these little lies  
Growing around me  
Oh, it's getting hard to tell  
What is real and what's a spell  
Lately

Am I just the prey  
For the hungry hounds out sniffing  
For the spin doctors on missions  
For the noise everybody makes?  
I can't keep running  
Into minefields of explosives  
Into traps that keep on closing  
Into all those same mistakes

Is it ever gonna be enough?  
Is it ever gonna be enough?  
I'm calling for the jaws of life  
Come help me out, I'm not alright  
I'm in the mouth of madness  
Where the devil pulls all the strings  
Watch his marionettes dance and sing  
The Cheshire cat is smiling  
In the mouth of madness

In the mouth of madness  
I'm in the mouth of madness  
I'm in the mouth of madness  
I'm in the mouth of madness

Paranoia dream  
My reality  
Is now pulp fiction  
Questions I can't help but ask  
Keep eroding every path  
I've taken

I can't play by the rules  
When the truth's always shapeshifting  
All my thought-crimes, yeah they might kill me  
Little fly on the spider web
