

## We

Felix da Housecat

Hey boy, take me off the radar  
People said we never go far  
Look at you so take me away from him  
Turbo boost me into the stratus field  
Looking fine, got you in my sight  
I surrender wont put up the fire  
You're my darling I adore you  
I'll stand by you always stay true  
(Chorus)

Space captain, would you take me on a rocket ride?  
Don't say no cause i wont be denied  
You're my boy, I'm your girl,  
Take me out of this messed up world  
Out the window, there's the tiny earth  
In your arms, I know what thim worth  
You and I, Loving outta space  
here with you a perfect dream place  
Far away, the distance earth like  
Yours forever, silent space ride  
Energize my inner fantasy  
Go whatever this craft takes me  
(Chorus)

trans centres all static  
Together by electric fate  
I'm a solar power princess  
your technological soul mate  
emotion at the speed of light  
Jet fueled warship  
A lusty in the red  
Of a digital relationship  
(Chorus) x 4
