Monster

Felix Jaehn

Turn the lights on
In my darkness
So it brings me back to you

Pull the blinds up
In my conscience
So it brings me back to you

There's a Monster going wild in the depth of my mind
You should know that I get scared of my head sometimes
There's a Monster going wild in the depth of my mind
And I'm sorry that I let you down

There's a Monster going wild in the depth of my mind
You should know that I get scared of my head sometimes
There's a Monster going wild in the depth of my mind
And I'm sorry that I let you down

There's a monster going

Turn the lights on
In my darkness
So it brings me back to you

Pull the blinds up
In my conscience
So it brings me back to you

There's a Monster going wild in the depth of my mind
You should know that I get scared of my head sometimes
There's a Monster going wild in the depth of my mind
And I'm sorry that I let you down

There's a Monster going wild
In my mind
In my – in my mind
And I'm sorry that I
And I'm sorry that I let you down

There's a Monster going wild in the depth of my mind
You should know that I get scared of my head sometimes
There's a Monster going wild in the depth of my mind
And I'm sorry that I let you down

There's a monster going

There's a Monster going wild in the depth of my mind
You should know that I get scared of my head sometimes
There's a Monster going wild in the depth of my mind
And I'm sorry that I let you down

There's a monster going wild
