

Still Fall

Felix Jaehn

Every time I get these blurry eyes
I feel I'm getting close to paradise
I can touch the colours in the skies, ah

As the light is pouring in
I don't need another thing
I know underneath these sheets
Is where I breathe

As I lay here beside you
I still fall for you
When you hold me like you do
I still fall for you
Fall for you
Fall for you
Fall for you
Fall for you

Fall for you
Fall for you
Fall for you
Fall for you

I don't wanna wake up from this dream
I feel like I could stay here in the deep
'Cause your love is like an ocean next to me, ah

As the light is pouring in
I don't need another thing
I know underneath these sheets
Is where I breathe

As I lay here beside you
I still fall for you
When you hold me like you do
I still fall for you
Fall for you
Fall for you
Fall for you
Fall for you
Fall for you
Fall for you

As I lay here beside you
I still fall for you
When you hold me like you do
I still fall for you
Fall for you
Fall for you
Fall for you
Fall for you
