

# Lovisa

Felix Sandman

Två, tre

Oh, my dear Lovisa  
You talk so different when we're not alone  
Oh, my dear Lovisa  
Say you got feelings but you act so cold

I love the way you dance around naked in the living room  
But every high just leads to lows  
Still what hurts the most  
Is I can't let go

Oh, my dear Lovisa  
Your name keeps coming up in all my songs  
Oh, my dear Lovisa  
I'm feeling weak because my heart feelings strong

I love it when we're in these sheets  
Talking 'till you fall asleep  
But every high just leads to lows  
Still what hurts the most  
Is I can't let go  
Go  
Let go (Let go)  
Go (Let go)

Lovisa  
Lovisa  
Lovisa  
Lovisa

Oh, every high just leads to lows  
Still what hurts the most  
Is I can't let go (is that I can't let go)  
Go

So my dear Lovisa  
If you love me just let me know
