

Milkshakes

Felix Sandman

Milkshakes in the morning
Sugar kicked me in the face when you said hello
Memories are fading
The grass is green and warm as it
Takes me home to you, baby

Is this how you like to be with me?
Wouldn't mind if we hit casually
And though my eyes are red
I see you so clearly, look too intrigued
You got love to receive but it's slight
I've been all up in my feelings I just had to get away
I'm faded, you tie my laces, I'm asking you to stay
Girl, we got sticks and lots of whip I think we'll be okay
Craving sweet, need no sleep

Milkshakes in the morning
Sugar kicked me in the face when you said hello
Memories are fading
The grass is green and warm as it
Takes me home to you
Milkshakes in the morning
Sugar kicked me in the face when you said hello
Memories are fading
The grass is green and warm as it
Takes me home to you babe

Catch me flying, no I do no mileage
Fill the silence, print you onto my lens
Too on time for the loot, that's a love sign
Keep my mind in a loop til I come down
I've been all up in my feelings I just had to get away
We pretty, I don't get jaded, you're asking me to stay
Girl, we got sticks and lots of whip I think we'll be okay
Craving sweet, need no sleep

Milkshakes in the morning
Sugar kicked me in the face when you said hello
Memories are fading
The grass is green and warm as it
Takes me home to you
Milkshakes in the morning
Sugar kicked me in the face when you said hello
Memories are fading
The grass is green and warm as it
Takes me home to you, baby
