

Summer

Felix Sandman

(Summer
Really get us
Thinking too much
And the feeling
And you moving around like)

It's like you move twice
Can't catch you like price
Can't fall from this height
Puffs on that weed
Moving like Mike
It's 5:50, phone with me
You wanna stay, I wanna go
I'm in LA, you in New York
Never wished to be alone
But it's like you live for me sometimes

Summer
Really get us
Thinking too much
And the feeling
And you moving around like
Summer
Really get us
Thinking too much
And the feeling
And you moving around like

It's like you been forever this way
You catch the light, you're on display
Times we just walk thru, you stray from the truth
Ask me again and I ain't got no clue
Familiar tires, folded on bikes
Yeah yeah
Handle the rise, handle the rise

Summer
Really get us
Thinking too much
And the feeling
And you moving around like
Summer
Really get us
Thinking too much
And the feeling
And you moving around

Pretty, I would never leave you
Love is like a flower
We could take a walk, know you love a sunny Day
I wanna say I'm sorry
For what you deal with daily
Show me how to change, give me time to

Pretty, I would never leave you
Love is like a flower
Pretty, I would never leave you

Love is like a flower
Pretty, I would never leave you
Love is like a flower
Pretty, I would never leave you
Love is like a flower
Pretty, I would never leave you
Love is like a flower
Pretty, I would never leave you
Love is like a flower
